

# Shiner Catholic School

## Teacher Wish List

*Thank you so much for visiting our Teacher's Wish List link. Our teachers do so much for our children every day and unfortunately do not always have all the resources or the funds to purchase some of the things that are needed to help make their job easier and that will help improve our children's educational experience at Shiner Catholic School. Please review the following list and pass this information on to anyone who may be interested in helping our teachers and our children. For some of the more expensive items, consider dividing it up between several families that may be interested in donating. This list will be periodically updated, so please check back again.*

### Pre-K Religion – Sister Catherine

- Big Picture Books of The Bible Story.

### Elementary

- 19" T.V. to be used Grades K through 6<sup>th</sup>.

### Religion – Sister Mary Anthony

- A tall white book shelf.
- DVDs on church history.
- Plastic organizer boxes to store crafts.

### 5<sup>th</sup> Grade – Mrs. Kathy Vrana

- Roll-Down World Map to hang on the wall.

### St. Paul Computer Lab – Mrs. Lori Raabe

- We have a new computer lab at St. Paul High School which is shared with the St. Ludmila students for their computer classes, as well. We have 25 new iMac computers and currently have a balance of \$7,000. Any donation toward the new iMac computers would be greatly appreciated.

## St. Paul Science – Mrs. Deanna Sengelmann

- 47" Vizio LCD 1080p 120Hz HDTV – Sam's Club Price: \$847.  
We use the computer projector quite a bit during my science classes. As we share projectors, this is a hit or miss proposition. The cables and space they take up is quite messy and dangerous in the classroom. I would love to have an LCD TV (at least 47") fixed above my whiteboard so that we can view it in daylight and I can write on the board at the same time. It's a dream!
- Ohaus Scout Pro Balance, 200g x 0.01g  
SKU WW47191M02  
Need 3 @ \$342.00 each – These can be found at [www.sciencekit.com](http://www.sciencekit.com).  
Our lab now shares one electronic balance. It would be nice for each of my four lab stations to have their own balance!
- Boreal2 Microscope – AP Advanced , Trinocular Head, Corded  
SKU WW01762M16  
Need 2 @ \$675 each (sale price) – These can also be found at [www.sciencekit.com](http://www.sciencekit.com).  
We have basic microscopes for our biology and advanced classes. We need a few microscopes capable of 1000x magnification to study our bacteria. At present, we can only view at 400x. These microscopes also allow students to take a digital picture of what they see for comparisons, lab reports, etc. I WISH I had these for my students!

## Science – Mrs. Amy Adamek

- Eastern Hardwood Meter Stick, 0.5 meter stick: Found at [www.cynmar.com](http://www.cynmar.com).  
Item #160-26113, \$1.55 each (Needs 10)
- Student Compasses: Found at [www.cynmar.com](http://www.cynmar.com).  
Item #094-06977, \$1.50/pack (Needs 2 packs)
